Putting Off a Big Project

Have you ever put off a big project because of the work involved? For example, say you want to refinish the deck, but the idea of all that scraping, cleaning and painting makes you think, “Hmm. Maybe I’ll wait until next month!”

That’s not unusual. We’ve all had the experience of putting things off until later in the month, season or year. Usually, it’s not a big deal.

However, there are some projects you shouldn’t put off. One of them is listing your home. If you’ve been thinking about moving, don’t wait until the last minute to put your property on the market. Give me a call and let’s get the process started right away.

Yes, selling a home is a lot of work, but as your real estate agent, I do most of the “heavy-lifting” for you. And, I'm an expert at making the process go smoothly and easily.

Bottom line: If you’re thinking of selling, the best time to list is today.

All the best!

When you get asked

Occasionally, a friend or neighbour might ask you to recommend a real estate agent. When that happens, please feel free to give them my name. I really appreciate your referrals.
